About Kaps A-Card

The “A-Card” is designed on a contactless transaction platform that enables you to pay for the services using the value stored in the card.

After getting the card, you’re only required to top up with a minimum initial value of KES 500.00 which is redeemable as payment for the services offered to you.

Your A-Card can be topped up with any amount from as low as KES 500.00 to as much as any amount

The money topped up in your A-Card remains in the card at all times, with subsequent transaction values being deducted at each point of use until the amount is depleted.

Every time when the card is used; you get an alert to notify you the amount that has been deducted

You can track the usage of the funds in your “A-Card” by first registering it at the point of purchase after which you shall be able to check your balance at the following link; www.aps.co.ke/balance.php

Features

- Built on wireless mifare smart card technology
- Carries value on the card and does not need to be linked to the bank account
